KALDEWEI: NEW PRODUCTS 2009. CONCENTRATION ON THE EXTRAORDINARY.

In 2009 Kaldewei is presenting two exclusive innovations that redefine bathing and showering. The new BASSINO shower pool is an absolute highlight not only due to its design – it also provides a whole new bathing experience: weightless floating.

The round shower plate PIATTO, an avant-garde design object that stands in the middle of the room, is surely today's most luxurious way to shower. Both of these extravagant models were conceived by Phoenix Design, Stuttgart/Tokyo. Another exceptional design statement signalling an extremely individualistic interior style is made by black baths with black panelling. A total of eight models are available in this sleek black look.

Institut Bauen
und Umwelt e.V.

Kaldewei steel enamel 3,5 mm is certified for sustainable and ecofriendly building in accordance with ISO 14025.

With its ecofriendly manufacturing, packaging, transport and disposal processes, Kaldewei has long followed the path of environmental sustainability. Kaldewei is the first German bathroom fixtures company to be certified for sustainability by the Institut Bauen und Umwelt e. V. (German Institute Construction and Environment), confirming the uncompromising brand and materials philosophy the company has already been practicing for decades.

FLOATING – THE ULTIMATE IN RELAXATION. THE NEW KALDEWEI BASSINO.

In the new Kaldewei BASSINO you can enjoy a completely new bathing experience. The innovative concept makes the dream come true of floating freely suspended in a shallow pool. Purist design with clean-cut interior lines creates generous proportions allowing you to lie back and relax in the water. The low height makes stepping into BASSINO exceptionally comfortable, while the vertical walls of this minimalist pool allow maximum space for showering.

UNWINDING IN THE BATH CAN TAKE MANY FORMS.

The new BASSINO shower pool responds to a wide variety of personal needs and desires. Its purist design with straightforward interior lines conveys a feeling of lightness and simplicity, while its generous 2 x 1 m of space allows for comfortable reclining and free movement in the water. With its spacious interior, BASSINO invites bathers to float weightlessly in the water. For an optimal floating effect, it comes with a cushion to be placed under the neck, supporting the head.

Floating encourages quiet, even breathing and loosens up the muscles. A trance-like state of tranquillity is achieved, with an unparalleled deep relaxation effect. Floating thus releases physical tension and at the same time enhances the bather's feeling of well-being, powers of concentration and creativity.

With its ample proportions, BASSINO not only offers bath-time floating, but also great freedom of movement when showering. BASSINO is available with several different panelling variations, to fit the respective layout of the installation space: as corner bath, wall bath or freestanding. A freely adjustable bath board (95 x 26 cm) can be used as either shelf or seat, extending the comfort functionality and perfecting the idea of versatile and individualised bathing pleasure. Dimensions: 200 x 100 x 35.5 cm.

Available from April 2009.

Cushion for relaxed floating. Included in delivery.

AVANT-GARDE STARTS WHERE THE FAMILIAR LEAVES OFF. THE NEW KALDEWEI PIATTO.

Breathtaking, extravagant, avant-garde. Even these superlatives can hardly do justice to the new, circular PIATTO shower plate. This elegant, innovative design object made of Kaldewei steel enamel 3.5 mm unfolds a particularly striking effect in spacious surroundings.

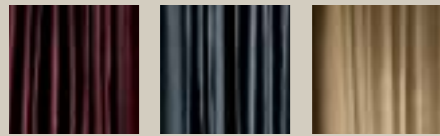

PIATTO combines the highest design standards with extremely comfortable showering. The cleverly conceived upturned edge lends the shower plate a lightweight, almost floating character. And as a complete ensemble with exclusive shower curtain the PIATTO shower becomes a flamboyant design object creating an unforgettable living space.

EXTRAVAGANT DESIGN AS A PLEA AGAINST THE HUMDRUM.

Art or design object? The PIATTO shower plate with its new, avant-garde design gives concrete shape to the desire to create an extremely individualistic bathroom style. Self-assured and imposing, this freestanding shower with its generous dimensions commands the space like a fascinating filigree sculpture. With an edge height of 6 cm, the shower plate made of Kaldewei steel enamel 3.5 mm seems to be suspended above the ground. And its diameter of 150 cm offers an exceptional amount of space for an exclusive showering experience.

The elegant curtain of Teflon-coated taffeta falls straight and flush with the shower edge thanks to contact magnets concealed in the hem. In order to create the impression of a uniform round surface, the centrally located drain has been fitted with a cover in the same colour as the shower plate. The PIATTO comes standard with easy-clean finish for effortless care. Dimensions: 150 x 6 cm.

The PIATTO shower curtain is available in bordeaux red, anthracite and chamois beige.

REFINED AND UNEXPECTED. FREESTANDING BATHS WITH BLACK MOULDED PANEL.

People with design savvy and a sense of modern bathroom style will be torn between two colours that are always in fashion: white and black. But those looking for something special and exclusive, something to lend a space a striking look, will opt for a freestanding bath in elegant black.

For example, the ELLIPSO DUO OVAL in black with a gently curving, elliptical shape that speaks a singularly extravagant formal language. With eight models to choose from, there's a bath to fit every taste.

Model	Model No.	Length (cm)	Width (cm)	Depth (cm)	Anti-slip	Full anti-slip	Easy-clean finish	Accessories	VIVO VITA whirl system

LADOPLAN

SOPHISTICATED DESIGN IN A NEW COLOUR. LADOPLAN – NOW ALSO AVAILABLE IN BLACK.

Thanks to its carefully conceived design, LADOPLAN provides pure showering pleasure. This spacious floor-level shower tray is like a flat beach with the water gently ebbing away at one side – its singular appeal based on a clear formal language. The unique combination of design and functionality has won the LADOPLAN shower tray several design awards. All LADOPLAN models are now available in elegant black. Dimensions: 90 x 90 x 3.5 cm, 80 x 100 x 3.5 cm, 100 x 100 x 3.5 cm.

Available from April 2009.

A PERSONAL TOUCH BRINGS NEW LUSTRE TO THE BATHROOM. GOLD DECORATION FOR BATHS AND SHOWER TRAYS.

Gold is not only synonymous with luxury in general; it also stands for an individualistic, exclusive lifestyle. With extraordinary new gold ornamentation, Kaldewei once again underscores its talent for innovation, bringing the matchless splendour of this noble material to distinguished bathrooms. On request, Kaldewei baths and shower trays can be furnished with personalised ornamentation in 24-carat gold plating. 24-carat is extremely pure fine gold with gold content of 99.9% – also known as “999 gold”. Adorned this deluxe gold decoration, baths and shower trays are elevated to the status of singularly beautiful design objects.

DESIGN AND SAFETY IN ONE. THE NEW ANTI-SLIP DECORATION FOR SHOWER TRAYS.

Anyone wishing to combine aesthetic quality with optimal anti-slip coating in their SUPERPLAN shower tray will welcome the new anti-slip decoration. The finely delineated ornamental pattern brings a chic new look to the bathroom, adding both safety and visual appeal. Anti-slip enamelling is made of a mixture of quartz and sand and burnt permanently into the Kaldewei steel enamel 3.5 mm, its textured surface providing an optimal foothold. The new anti-slip decoration is available for all SUPERPLAN shower trays up to size 120 x 120 cm.

Available from April 2009.

SUPERPLAN with anti-slip decoration

RELAX LOUNGER 18/19

NEW COMFORT FOR THE BATHROOM. THE NEW CONODUO RELAX LOUNGER.

The new Relax Lounger for the CONODUO bath instantly turns the designer bath into a small wellness oasis. Relaxing on the fine fabric, you'll feel as if you're lying on the deck of an elegant yacht.

In addition to its design qualities, the Relax Lounger offers a high level of functionality. It is made up of three pieces of two sections each, making it possible to use the Relax Lounger as three separate boards with varying applications: for example as a shelf while lying in the bath, or as a mattress to recline on.

When the three boards are placed together on the CONODUO, they can be connected securely, forming a large, stable surface that sits firmly on the bath. A further connection between the Relax Lounger and bath can be created by fixing attachment buttons to the bath. This allows even already installed CONODUO baths to be retrofitted with the Relax Lounger. The Relax Lounger supports up to 130 kg and is available with a special cushion. Cushion dimensions: 40 x 23 x 9 cm. Relax Lounger dimensions: 180 x 80 cm, 190 x 90 cm.

Available from May 2009.

Rack for storing Relax Lounger and cushion.

TOUCH DISPLAY FOR VIVO VARIO PLUS / LIGHTED JETS FOR VIVO TURBO

PRACTICAL AND CONVENIENT. THE NEW TOUCH DISPLAY FOR VIVO VARIO PLUS.

The new and convenient Touch Display for the VIVO VARIO PLUS whirl system replaces the former remote control as of June 2009. Using the 4.3" Touch Display all whirl functions can be adjusted at the touch of a fingertip: the floor and massage jets, the champagne effect, whirl intensity and the time remaining for the bath.

Fingertip control is also possible for the optional underwater spots, spectral lights and water heater. As whirl baths are often shared, the Touch Display allows up to four favourite settings to be stored in memory and called up anytime.

LIGHT CREATES A CALMING ATMOSPHERE. THE NEW LIGHTED JETS FOR VIVO TURBO.

Coloured light as a means to relax is among the most fascinating ways of achieving positive effects on body and soul. To enhance light's calming effects even further, an exclusive new lighting concept has been developed for the VIVO TURBO and VIVO TURBO PLUS whirl baths as an alternative to the options that are already available: lighted jets.

The effect is not only relaxing, but also aesthetically striking: the jets cast beautiful light patterns through the water. Every single jet is equipped with the latest in LED technology. When the whirl system and lights are switched on, the jets glow in accordance with the particular whirl function that has been activated. When the whirl system is then shut off, the lighting can still be used to create a wonderful ambience while bathing. The jets are available in white or blue.
