

Kitchen
combination

Una visione d'insieme delle innumerevoli possibilità d'abbinamento offerte da **Nardi**.

I prodotti sono divisi per colore di appartenenza, **8 gruppi** all'interno dei quali è facile scegliere le diverse tipologie di prodotto coordinate.

I prodotti riportati nelle pagine a seguire e suddivisi per famiglia colore, si differenziano unicamente per la finitura estetica, **le caratteristiche tecniche sono uguali a quelle dei prodotti con medesima sigla elencati nei relativi capitoli di appartenenza.**

An overview of the endless coordination possibilities offered by **Nardi**.

The products are divided by colour in **8 segments** in which it is easy to choose different combinations.

The products in the next pages differ solely in their finishing; **the technical characteristics are the same as the products with the same product code listed in the corresponding chapters.**

JB granito beige • beige granite
JA granito panna • cream granite
JN granito nero • black granite

EXTRAGRANIT

Tutti i prodotti EXTRAGRANIT offrono un effetto estetico simile a quello della pietra naturale. I lavelli sono composti da micro-granuli di quarzo e speciali resine acriliche. Le diverse tonalità di quarzo sono selezionate in modo da conferire ai lavelli particolari colorazioni e una superficie che anche al tatto riproduce l'effetto della pietra, richiedendo però una minore manutenzione.

EXTRAGRANIT

All EXTRAGRANIT products offer a look and feel similar than that of natural stone. EXTRAGRANIT sinks are made up mostly of micro quartz granules. The accurate selection of different quartz tonalities convey the characteristic. An EXTRAGRANIT sink requires less maintenance that that of a natural stone sink.

GRANIT

Tutti i prodotti GRANIT offrono un effetto estetico simile a quello della pietra naturale. I lavelli sono composti da una speciale miscela di silicio, cristobalite, quarzo e resine acriliche che conferiscono alla superficie un effetto visivo e tattile simile a quello della pietra, ma richiedono una minore manutenzione.

GRANIT

All GRANIT products offer a look and feel similar than that of natural stone. GRANIT series sinks are made up of a special mixture of silicon, cristobalite, quartz and acrylic resins. The GRANIT surfaces look and feel similar to natural stone, requiring less maintenance that that of a natural stone sink.

ULTRAMETAL

Tutti i prodotti ULTRAMETAL presentano una rifinitura silver che produce un effetto visivo metallico. I lavelli sono composti da resina acrilica e macrogranuli di quarzo selezionati che conferiscono loro effetti cromatici ricercati. Ottima resistenza agli sbalzi termici, agli urti e all'abrasione. Inoltre la superficie ULTRAMETAL richiede una minore manutenzione rispetto a quella in acciaio.

ULTRAMETAL

ULTRAMETAL products have a special silver finish that imitates the visual impact of metal. ULTRAMETAL sinks are composed almost entirely of quartz. This material offers great resistance to thermic shock, knocks and abrasion. Moreover, the ULTRAMETAL surface requires less maintenance than a steel sink, where scratches and stains are unavoidable.

COLOR

Tutti i prodotti della linea COLOR sono disponibili in due speciali colorazioni, carbon e avorio, che consentono un coordinamento cromatico davvero suggestivo. I lavelli sono composti da silicio e resine acriliche speciali. Inoltre la superficie COLOR ha un'ottima resistenza agli shock termici, agli urti, ai graffi e richiede una minore manutenzione rispetto all'acciaio.

COLOR

Products of the COLOR series are available in two special colours, carbon and ivory, and allow a suggestive chromatic coordination. Sinks of the COLOR series are made up of silicon and special acrylic resins that give them characteristic colourings. Moreover, COLOR surfaces have an excellent resistance to thermic shock, knocks and requires less maintenance than a steel sink.
